3+2 Engineering Dual Degree Program

Bachelor of Science (BS.PHYS(ELEC))

Core Requirements			Credits	Notes/Instructions
College Sem.	Quest for Meaning	CSEM 100	3	†A student may be required to take ENGL 105 and/or MATH 100 based on placement exams administered prior to their first semester at King's College. ENGL 105 and MATH 100 are 3-credit courses and will count as free electives. †† The Intercultural Competence requirement can be satisfied by taking a 100-level language class for 3 credits or participating in an approved Study Abroad experience. (See college catalog for more information) SBM = Satisfied By King's Major requirement(s) and credit(s) listed below. (3) To satisfy the King's Core requirements, a student will need to complete four (4) Core requirements at Notre Dame or Washington University
Communication & Creative Expression	Writing	ENGL 110†	3	
	Oral Communication	COMM 101	3	
	Literature	ENGL 140-149	(3)	
	The Arts	ARTS 100-149	(3)

General Information

The 3+2 Physics-Electrical Engineering Dual Degree Program is a collaboration with the University of Notre Dame and with Washington University in St. Louis. Students will spend three years at King's College taking mathematics, science, engineering, and general education CORE courses. Eligible students will then transfer to Notre Dame or Washington University for two years to complete engineering courses in their chosen field. Upon successful completion of the program, students will receive both a B.S. in Physics from King's College and a B.S. in Electrical Engineering from either Notre Dame or WashU. (For more information, refer to the college catalog).

Total Credits earned at King's College = 99

Notes:
 * PHYS Electives required for the King's degree satisfied by any junior or senior level electrical engineering course at Notre Dame or Washington University

Students apply for transfer admission to the University of Notre Dame or Washington University in St. Louis after completion of the Fall semester of their 3rd year. Students must have satisfied King's College academic guidelines, as well as the following general criteria:

- For Admission to the University of Notre Dame
 - Cumulative grade-point average (GPA) of at least 3.6 on a 4.0 scale.
 - Cumulative technical grade-point average of at least 3.6 on a 4.0 scale (all math, science and engineering courses)
 - GPA must be maintained through Spring Semester of Year 3
 - All grades that transfer to Notre Dame must be a "B" or higher, and grades for all courses taken at King's must be a C or higher
 - At least 60 credit-hours of work that can be transferred to satisfy Notre Dame engineering and general education degree requirements
- For Admission to Washington University in St. Louis
 - Cumulative grade-point average (GPA) of at least 3.25 on a 4.0 scale.
 - Cumulative technical grade-point average of at least 3.25 on a 4.0 scale (all math, science and engineering courses)
 - GPA must be maintained through Spring Semester of Year 3
 - All grades that transfer to Washington University must be a "C" or higher
 - At least 60 credit-hours of work that can be transferred to satisfy WashU engineering and general education degree requirements
- The specific admission criteria for each school will be confirmed by the 3+2 Program Director

Notes:

PHYS 233/L satisfies the Notre Dame requirement for EE 20224 Intro to Electric Circuit Analysis and EE 20225 Intro to Electrical Engineering

PHYS 371 satisfies the Notre Dame requirement for EE 30348 Electromagnetic Fields

CS 270 satisfies the Notre Dame requirement for CSE 20221 Logic Design

PHYS 350 will satisfy one of Notre Dame's Technical Elective requirements

PHYS 330 will satisfy Notre Dame's Engineering Science Elective requirement

PHYS 350 and 371 will satisfy Washington University's Engineering & Science breadth elective requirements

*Students are encouraged to take summer courses to relieve the course load pressure during this semester.

¹Choose one course from each of the Core Requirements listed on the reverse side.

²Course may satisfy both a Major and a Core requirement. CHEM 113 and PHYS 113 will satisfy the Scientific Endeavor and Science in Context Core requirements.

MATH 129 will satisfy the Quantitative Reasoning Core requirement.

^{PR} Course has a prerequisite – check college catalog.

^{CR} Course has a co-requisite – check college catalog.
