

Environmental Science – Environmental Engineering Track

3+2 Engineering Dual Degree Program

Bachelor of Science (BS.ENST(EE))

Core Requirements			Credits	Notes/Instructions
College Sem.	Quest for Meaning	CSEM 100	3	†A student may be required to take ENGL 105 and/or MATH 100 based on placement exams administered prior to their first semester at King's College. ENGL 105 and MATH 100 are 3-credit courses and will count as free electives. †† The Intercultural Competence requirement can be satisfied by taking a 100-level language class for 3 credits or participating in an approved Study Abroad experience. (See college catalog for more information) SBM = Satisfied By King's Major requirement(s) and credit(s) listed below. (3) To satisfy the King's Core requirements, a student will need to complete two (2) Core requirements at Notre Dame
Communication & Creative Expression	Writing	ENGL 110†	3	
	Oral Communication	COMM 101	3	
	Literature	ENGL 140-149	(3)	
	The Arts	ARTS 100-149	(3)

General Information

The 3+2 Environmental Science-Environmental Engineering Dual Degree Program is a collaboration with the University of Notre Dame. Students will spend three years at King's College taking mathematics, science, engineering, and general education CORE courses. Eligible students will then transfer to Notre Dame for two years to complete engineering courses in their chosen field. Upon successful completion of the program, students will receive both a B.S. in Environmental Science from King's College and a B.S. in Environmental Engineering from Notre Dame. (For more information, refer to the college catalog).

Total Credits earned at King's College = 100

Notes:
 The Biology requirements for the King's Environmental Science major is by taking CE 40341 Biological Process Design and CE 40350 Environmental Microbiology CE 40702 Senior Design taken at Notre Dame will satisfy King's ENST 49X Environmental Science Capstone requirement
 Any other 30000 or 40000 level ENVG or CE courses taken at Notre Dame will satisfy the six King's Environmental Science Major Elective requirements

Total Credits earned at King's College = 100

Students apply for transfer admission to the University of Notre Dame after completion of the Fall semester of their 3rd year. Students must have satisfied King's College academic guidelines, as well as the following general criteria:

- For Admission to the University of Notre Dame
 - Cumulative grade-point average (GPA) of at least 3.6 on a 4.0 scale.
 - Cumulative technical grade-point average of at least 3.6 on a 4.0 scale (all math, science and engineering courses)
 - GPA must be maintained through Spring Semester of Year 3
 - All grades that transfer to Notre Dame must be a "B" or higher, and grades for all courses taken at King's must be a C or higher
 - At least 60 credit-hours of work that can be transferred to satisfy Notre Dame engineering and general education degree requirements
- The specific admission criteria for each school will be confirmed by the 3+2 Program Director

Notes:

The 2 course sequence ENST 201/L and ENST 202/L Environmental Science I & II satisfies the Notre Dame requirement for ENVG 20300 Change, Water and Energy

CHEM 241/L and CHEM 242/L will satisfy two Note Dame Technical Elective requirements

PHYS 241 satisfies the Notre Dame requirement for CE 20150 Statics

MATH 361 satisfies the Notre Dame requirement for ACMS 30440 Probability & Statistics

*Students are encouraged to take summer courses to relieve the course load pressure during this semester.

¹Choose one course from each of the Core Requirements listed on the reverse side.

²Course may satisfy both a Major and a Core requirement. CHEM 113 and PHYS 113 will satisfy the Scientific Endeavor and Science in Context Core requirements. MATH 129 will satisfy the Quantitative Reasoning Core requirement.

^{PR} Course has a prerequisite – check college catalog.

^{CR} Course has a co-requisite – check college catalog.
