

BIOLOGY

MINOR CONCENTRATION

A minor concentration requires a minimum of six courses, representing at least eighteen credits, in the minor field of study. In addition, a department may add academic prerequisites or requirements in related fields, but the total will not exceed 60% of the department's major program requirements. Minor requirements are listed under departmental entries. In order to complete requirements for a minor, the student must take the majority of credits in the minor field at King's. Minor areas of concentration (minors) are permitted, but not required.

Monitoring of student progress in pursuing a minor in **Biology** is necessary to enhance the student learning experience. Therefore, a written declaration must be submitted by the student to the Registrar.

Minor Requirements (6 courses)	Credits
BIOL 113 Evolution and Diversity with Lab	4
BIOL 210 Organisms and Their Ecosystems with Lab (<i>Prerequisite: BIOL 113</i>)	4
BIOL 213 Cell and Molecular Biology with Lab (<i>Prerequisite: BIOL 113, BIOL 210</i>)	4
<i>A minimum of three (3) BIOL electives chosen in consultation with departmental advisors.</i>	xx
