

COMPUTER SCIENCE

MINOR CONCENTRATION

A minor concentration requires a minimum of six courses, representing at least eighteen credits, in the minor field of study. In addition, a department may add academic prerequisites or requirements in related fields, but the total will not exceed 60% of the department's major program requirements. Minor requirements are listed under departmental entries. In order to complete requirements for a minor, the student must take the majority of credits in the minor field at King's. Minor areas of concentration (minors) are permitted, but not required.

Monitoring of student progress in pursuing a minor in **Computer Science** is necessary to enhance the student learning experience. Therefore, a written declaration must be submitted by the student to the Registrar.

Minor Requirements <i>(6 courses – 18 credits)</i>	Credits
CS 112 Introduction to Programming	3
CS 120 Object-Oriented Software Development	3
CS 232 Data Structures (lab optional)	3
CS 256 Database Management (lab optional)	3
Computer Science Elective of 200-level or above chosen in consultation with departmental chairperson or program director	3
Math Elective of 200-level or above chosen in consultation with departmental chairperson or program director	3
