

MATHEMATICS

MINOR CONCENTRATION

A minor concentration requires a minimum of six courses, representing at least eighteen credits, in the minor field of study. In addition, a department may add academic prerequisites or requirements in related fields, but the total will not exceed 60% of the department's major program requirements. Minor requirements are listed under departmental entries. In order to complete requirements for a minor, the student must take the majority of credits in the minor field at King's. Minor areas of concentration (minors) are permitted, but not required.

Monitoring of student progress in pursuing a minor in **Mathematics** is necessary to enhance the student learning experience. Therefore, a written declaration must be submitted by the student to the Registrar.

Minor Requirements <i>(6 courses – 20-24 credits)</i>	Credits
MATH 129 Analytic Geometry and Calculus I	4
MATH 130 Analytic Geometry and Calculus II	4
<i>Plus: Four (4) additional MATH courses numbered 124 or higher approved by the MATH department Chairperson</i>	12-16
